Our Environment

We have a spacious classroom where our learning takes place and a lovely outdoor area! Outside we have a sandpit, a mud kitchen, a music wall, a trim trail, a playhouse and more. We love planting flowers and watching them grow in our garden! We have a large playing field with a pirate ship that we love to climb up. We also have a sensory garden where we can go for some quiet reflection time.

Extra-Curricular Activities

We have an afterschool club that runs daily (except for Fridays). The theme of this varies but examples are Lego, Choir, Cookery, Knitting and more.

We also love to get out and about in our community, We have a minibus which means that we can go on regular excursions to enhance the curriculum.
